3 STEPS FOR TILING

HOW MANY TILES DO I NEED TO BUY?

STEP 1

To find out the number of tiles to buy, measure how wide and how high or long the area is that you want to tile.

STEP 2

Then multiply the width by either the height or the length of the area, this will give you the square metres of the area you need to cover.

STEP 3

To be on the safe side add an extra 10% to this number as there may be breakages or tiles that need to be cut.
